A sepia-toned photograph of a forest. Sunlight filters through the bare branches of trees, creating a bright, hazy glow in the center of the image. The ground is covered in fallen leaves and twigs.

Sand, the ocean breezes blow
Red in the sun, red so long ago
Torn by the waves, blown by the wind
Gone like the tide until we meet again,
again, again.

We are a dream, a vision, a story
yet to be told.
We are a theme, love was the writer
red long ago.
You were the sea and I was a river
flowing to you.
Knowing that you might still remember
red long ago.
You were my wings for I was just
learning to fly.
Red was the sky, love was the reason
we went to high.
We shared the joy now but, we feel
the pain.
Love was the valley we lost our way in
red long ago

Sand, the ocean breezes blow
Red in the sun, red so long ago
Memories of silver, heartaches of gold
These are the treasures of red so
long ago (long ago, long ago)

When you were the sea and I was a
river flowing to you
Knowing that you might still remember
red long ago

The Forum:

A LOOK AT 1977

Numerous changes occurred at Manchester College in 1977, most of them for the good. Among these changes were major advancements in the new auditorium; new options for food service; a change in convocation requirements plus a new name of Values, Ideas, and the Arts; the alternate visitation program was expanded by increasing the number of hours to noon to 11pm weekdays, and noon to 1:30 am Fridays and Saturdays, it was also adopted by all dorms; the biggest change by far occurred in the curriculum.

Most of these changes were widely accepted and approved by all. But soon the problems began. The Union started missing many more than the usual amount of utensils; a lack of student participation was noted in many places because students could not keep up with their new work loads. Profs were asked to cut down on assignments to help the students out. Because of new scheduling students were taking anywhere from 5 to 8 classes instead of the customary 4. Classes met only 3 times per week yet professors were requiring the same amount of work to be done. The students found themselves under an unbearable load and many began to skip to catch up but that only managed to put them further behind. Finally a forum was set up for the people to voice their views; many came to talk, listen, and agree. The administration agreed to study the problem further but this did not help the many who found the ends not worth the means so they transferred or dropped out not to return.

Curriculum Forum

May Produce Changes

"We want quality... a familiar Curriculum Auditorium M. Nearly 120 "busy" students attended the Pastor Bob Kn Academic explained some and responded questions raised at the microphone. Thirty-seven thoughts concerning Comments indicated College students are a "quality" than "quantity" prefer a deeper, "quality" four classes over a "quantitative" program of five or more classes.

Students expressed appreciation for the change to semester hours, since it is easier to compare with other schools; but they added that the system could be improved by expanding numbers meeting days in many areas so material could be covered at a college level with depth and understanding.

A report is being compiled which will list the good and bad points of curriculum changes singled out at the forum. The written report will be sent to members of the faculty and administration before exams.

Other points expressed include:

- 1) tenseness of dorm life such as doors being constantly slams to return to other;
- 2) "lack of time" co-curricular, extra-curricular (like field days immediately without any kind of rest);
- 3) lack of a reading and having regular days immediately without any kind of rest;
- 4) same number of classes over the past years;
- 5) not enough time to community or friends.

Dean Book concluded the meeting by saying he is looking forward to a constructive meeting early in the term of 1978.

R2D2:

This is the age of the whirling, humming, clanking computer, and it is encouraging to know that here at Manchester College...

e FAF
in the
t and in
978.

"I used to be able to use the library
and find a quiet spot in it... now I don't
go because I can't find a place to
study... the nooks are taken up... the
only time I go is to use the *Reader's
Guide*..." complained one student at
the recent discussion on curriculum
changes.

Library usage is up, according to head
librarian Allen Willmert, "by at least
ten to 12 per cent." However, he noted that
the library has traditionally had high
attendance records from November 1
until Thanksgiving break.

"This is the period when students have
term papers due—after Thanksgiving, you
don't find too many people researching
for a term paper," he said.

READING DAY

When asked about reading day
attendance, Willmert affirmed Academic
Dean Howard Book's statement (at the
Curriculum Change Forum) that the
library was used little on that day. But
Willmert added that students may have
been studying elsewhere.

Willmert estimated that 40 per cent of
the students "get their studying done
before the reading day, and spend their
time resting for exams; another 20 per
cent use the day for what it was meant to
be used for and the remaining 40 per cent

BCA Opens in England

may day

SURFIN' USA

Only twice per year are MC students allowed to legally skip classes. One of those times is Camp Mack Day and the other is MAY DAY.

On these days, beginning with Friday, students are able to participate in numerous planned activities. Some of the activities include canoe races, trike races (complete with creative dress), water balloon and kangaroo races and the spectacular Spartan Spoketacular. Other activities during the weekend included a movie, a dance, and a play by the Kenopocomoco players.

Left: Roger Cassell is caught by Steve Hammer in the Spoketacular. Below: A safely caught water balloon. Below left: Dawn Jones peddles down the straightaway.

ORIENTATION

Fall orientation was a time for freshman and transfer students to prepare themselves for college life. The students were divided into groups and these groups met with a campus pal who showed them around and answered any questions they had about campus life.

The orientation gave the new students a chance to meet the people they would be in contact with throughout the year. One way of meeting people was through a simulation game which was played where students set and went after goals for social and academic behavior.

Orientation also gave the students time to adjust to dorm life and some social life before the upperclassmen arrived by letting them move in a few days before classes started and by holding a square dance in the Union parking lot.

1. Tammy Weiland and friend preform a song and dance routine. 2. Introductions were made by Steve Weaver. 3. Georgana Visingardi and Jay Swindler interview R. Jan Thompson and Mary Peoples to achieve quality points in social life simulation.

Camp Mack A CRAZY, LAZY DAY

1. Brenda Shepard helps out with a leg in the three legged gunny sack race.
2. Faculty and students joined together in the annual volleyball games.
3. John Collum at bat. 4. John Schetzle tried his skill at four square. 5. Twyla Gross and Sue Lash rowed their boat around Lake Wabsee. 6. One of the many tug-o-wars. 7. Musical interludes were also a part of Camp Mack Day. 8. Jana Cornell tried her hand at lawn bowling.

Bright and early Thursday Morning, October 27, 1977 Manchester College students climbed into cars or on bikes and headed to Camp Alexander Mack for the day. Among the numerous activities planned students found time to sit and relax under the trees and watch their friends participate in games like volleyball, softball, four-square, tug-of-war, gunny sack races, and a scavenger hunt. Some of the quieter activities were boating, lawn bowling, and listening to musicians.

LIFT A THON

Convocations

This three part system provides Manchester students with cultural exposure and intellectual enrichment. The Convocation Series brings to campus, speakers, musical and dramatic performances and presents gifted persons from the college community. The Artist/Lecture series provides evening entertainment not only to MC students, but also to the North Manchester community. The third series provides exposure to internationally acclaimed films in the Foreign/Classic Film series. These combine to give Manchester a unique cultural experience.

EAST

This year East Hall's major project was to redecorate the Social Room. In January carpeting was purchased for the T.V. room and the social room was repainted. The dorm also had partitions made and will receive new furniture next fall to finish the room.

East had a year of firsts. Creating the 1st. annual "Slick Chick" march, the Gong Show and winning 1st. place for homecoming decorations.

East co-sponsored a hayride and picnic with Ikenberry and co-sponsored a square dance and disco with U.P.C.

East showed concern for small details this year too. For example cabinet locks, new bathmats and shower curtains were installed.

When not busy rewriting their constitution East Hall Resident Court kept busy hearing cases relating to dorm life.

Dorm Council kept things running smoothly and tried to create unity and interest in the dorm.

HALL

OAKWOOD HALL

"Good evening, Oakwood Hall, may I help you?" A short pause, a series of buzzes then fills the air; a scurry of activity and then someone is happily sitting in an alcove talking on the phone.

Life in Oakwood is never dull, and whether you live on first or second floor or even on the "hump," Oakwood was home. Where else on campus could there be found beautiful oaken floors, a sink in every room, porch swings, and friends that come to be like family by the end of the year, only in Oakwood—the oldest womens dorm on campus.

Colhecon

Colhecon is a small club with many ideas and activities. Many of its members are Home Economics majors, which is how it developed its name. The club is associated with many different things in the field of H.E. but not all of it is related to many ideas termed HE. Some of the activities on this yr's agenda included the annual Homecoming tea, the officers tea, and several state and district H.E. meetings as well as Colhecons duties as ushers for the artist/lecture series and many members offer to decorate the display case in the Winger bldg.

Officers: President and Co-public program director—Marsha Gratter
Vice President and Artist/lecture series director—Pat Holloway
Secretary—Treasurer and co-public program director—Amy Stanley
Publicity chairman—Linda Musgrave

Circle K International is the largest collegiate organization in North America with nearly 800 clubs.

Circle K is a service centered club through which college students can find a means of responsible student action in their communities and a more active involvement in the life of their campus.

In joining the club one forms friendships, works toward common causes with other students, and simply has fun.

Service projects are the most important part of the club and many of various types are undertaken each year. Believing that Circle K must look increasingly to service that involves us personally with the well being and happiness of other individual and realizing that the world is full of human need, the club emphasises enrichment of human life through association with the lonely; sustaining human life through health projects; saving human life through public safety; assuring the continuity of life through the protection of natural resources and through volunteer services. Through some of these projects you will be able to give love to many people and share a part of your life with them. No matter how much love you give to people, you'll receive much more. Loving people is the foundation of Circle K. Without love and care for others, we would be just another organization. Circle K is something special but it takes special people to make Circle K a success and an important factor in the community.

Math Club

What Is K.M.E.?

President—Sally Gradeless
Vice President—Jim Burkett
Treasurer—Randy Wilcox
Secretary—Sandy Mohn
Advisor—Ms. Carol Smith

Kappa Mu Epsilon is a national mathematics honor society founded for the purpose of binding together in a common fellowship those who are serious students of mathematics. To become a member of K.M.E. a student must have completed three courses in math (for a total of nine or ten semester hours), and one course in Calculus. He must be completing his sophomore year of college and carry at least a B average in math.

Math Club is open to any student interested in mathematics. Meetings are held once a month. This year's activities included a kick off party at Dr. McBride's home, Games Night, a joint science Christmas party, a career meeting with Florence Smith, a guest speaker on the statistics used in presenting a court case, and a Book Auction. The year ended with the annual Spring Banquet, at which new members were initiated and the officers for next year were elected.

Environmental Action

Music Educators National Conference

Manchester College's chapter of Music Educators National Conference is recognized nationally as one of the first ten chapters. MENC promotes music education and supplements the college music program through guest speakers and programs that are not a regular part of the music department.

MENC attended the IMEA convention at I.U., sold popcorn for fund-raising, and had as a guest speaker Mr. John Hill, doctoral candidate at Ball State.

Front row (L to R): Brad Seward, Vice President; Sandy Miller, President; Nolan Long, Treasurer. Back row: Susan Penner, Lila VanLue, Mary Lou Kniss.

Society of Physics

The Society of Physics Students (SPS) designed its meetings for the year around the theme, "Physics Careers". Talks by outside speakers were entitled, "Solar Energy and Thermal Insulation" and "Mystery of the Quasar". A set of reports on career opportunities were presented by club members dealing with Astronomy, Engineering, College Teaching, Civil Engineering, Optical Physics, Optometry, Electronics, and Graduate School Assistantships and Fellowships. Field trips were taken to the Michigan State University Cyclotron, Argonne National Laboratory, the Fermi National Accelerator laboratory, and to the annual meeting of the Indiana Section of the American Association of Physics Teachers at Terre Haute. The Spring banquet celebrated the 30th anniversary of the Manchester College Chapter of Sigma Pi Sigma, the National Physics Honor Society. MC has the 2nd oldest Chapter in Indiana. SPS officers were Martin Stauffer, President; Lynn Witmer, Vice President; and Brent Archer, Secretary-Treasurer; and Dr. Beery, Faculty Advisor.

Students

Community Faith In Action

The Campus Ministry Board is a group composed of twelve students, two faculty members and the campus pastor, Bob Knechel. From differing religious backgrounds, the Board tries to meet the various needs of individuals within the academic community.

In an attempt to develop a community of faith and action the Campus Ministry Board initiated the following programs under the guidance of these non-board members: Tuesday Morning Prayer Breakfast under the leadership of Lynn Zunkel in the fall and Paul Middaugh in the spring; Sunday celebration consisted of a cast of many; The Tutoring Program used the talents of Bev Ott, Sara Kurtz, Beth Hoover and Jeff Garber; Tuesday Collquy tried to make the campus aware of world issues; Prison Visitation was in the hands of Loren Waggy; The campus response to the World Day of Fasting was fantastic due to the efforts of Deb Sims and Co. and netted 286.00 dollars. In the spring there was a deputations team involving Jeff Davidson and Mary Kelsey; An Easter Love Feast inspirational lead by T. Wayne Rieman; A candle-light service before finals week; A discussion involving ten male and ten female athletes on "The Mystique of the Athlete"; Deb Smith worked with the Voluntary Action Center of Wabash County; With the floods of spring, nine members of the college community helped clean up Fort Wayne with Alan Weldy doing the leg work for that project.

All these programs were geared toward the boards aim of building community. Where ever there is a Spirit of God; a Spirit of Love and Nurturance, there is a community of faith and action.

Cheerleaders

OAK

In a year filled with apathy for the student publications the "Oak Leaves" staff worked hard at putting out a paper every week.

The energy crises and the early closing of the Print Shop threatened to stop the printing, but the staff merely cut the paper down to four pages and hand lettered the headlines.

Editor Dawn Briner received many complimentary letters on the paper and several staff members received awards at the annual Indiana Collegiate Press Association spring banquet.

Oak Leaves" was instrumental in organizing a forum on the new curriculum and tried to stimulate student interest and involvement in campus affairs.

Soccer "77"

Although the Spartan kickers failed to reach the .500 mark they displayed finer play than what the record indicated. Against a nationally ranked Goshen team the kickers managed to hold Goshen to only two goals but were defeated in overtime 2-1.

Throughout the season the main threat for the Spartans was senior and one of the tri-captains, Steve Link. Link scored eight goals and had four assists. Following Link was junior lineman Kermit Eby, who scored four goals and had three assists. Having nine senior starters this year, a new line-up will have to be found next season.

Front Row (L to R) John Gernand, Dennis Koenig, Hans Henkel, Jean DuFour, Roger Cassell, Dana Merrick, Phil Smith, Norm Hope, Steve Link, Ken Miller, Agita Pasqual, Kayode Teslim. Middle Row—Ron Mihavics, Dan Naragon, George Cook, Bob Kowalski, Bob MacIntyre, Kermit Eby,

1. Roger Cassell starts the offensive drive. 2. Agita fights for the ball. 3. Mauri Stump saves the goal.

Craig Leeper, Gary Yoder, Jim Horning, Joe McIntire, Mark Burke. Back Row—Kip Alishio (Assistant Coach), Grant Holsinger (Manager), John Lambrechts, Mauri Stump, Mark Sherman, Benno Lotz, Olisa Ibegbu, John Lahman (Coach).

1. Embree dribbles down the field. 2. A half-piourette. 3. Link gets congratulated after scoring one of his eight seasonal goals. 4. Kip Alishio, Mark Sherman, Ken Miller scrutinize the play. 5. Kermit attacks the goalie. 6. Signals crossed. 7. The wall.

SPARTANS STUNNED IN "77"

A YEAR OF SURPRISE

The 1977 fighting football Spartans began pre-season training as a large squad of anxious and hopeful men. It looked as if the Spartans were off on a race to the HBCC championship after posting a 4-5 mark in 1976 and only losing a handful of players to graduation. The team traveled to Crawfordsville, Indiana for a scrimmage game with Wabash College, the eventual NCAA Division 3 National Runner-up. The Spartans had an extremely strong showing but fell to defeat in the fifth quarter of play.

Ups and downs plagued the Spartans. Right at the start the team ran into trouble against Rose-Hulman and never seemed to get clear of the rut and come out ahead when the time ran out. Even though the Spartans had a 0-9 record they were only beaten twice by game statistics. Many of the losses were heart breakers both to the players and the fans. A defeat by a weak Bluffton team 9-7 on a kick-off return of 98 yards and a field goal in the last 16 seconds put a damper on the Spartans early in the season. That was the way it happened to the Spartans all year long. Earlham surprised Manchester on a touchdown scamper pulled seemingly out of thin air to defeat the Spartans 6-3. What can be said in defense of the Spartan club with a 50-7 defeat by arch rival Taylor? Manchester's only touchdown was scored by the defense when Dave Sipe ran back a punt blocked by Bob Johnson. It was obvious that the Spartans should have stayed in North Manchester and made the trek to Upland another day. When Findlay came to town the Spartans were hoping for a revengeful victory. With their strongest showing of the year the offense managed to score 21 points. The defense was stunned by two quick Findlay touchdowns but shut the Oilers off in the second half. Again the Spartans can up on the short end of the stick with a 42-21 defeat.

The story goes on but the end result was always the same. Fumbles, interceptions and breakdowns stopped many Manchester scoring chances. Costly mistakes hurt. Almost no consistent offensive punch. The bitter taste of a losing season. What can you say? Everyone associated with the 1977-78 Spartans keep asking themselves the same question over and over. How could this nightmare season happen with so much talent in the Spartan uniform? Hopefully it will never happen again.

It was obvious to the other coaches around the league that M.C. was not as bad as their record indicated. The Spartans landed 4 players on the HBCC All-Conference First Team. Senior co-captain Mike DeBord was selected at offensive guard and senior Tim Johnson was chosen as the kicking specialist. Two juniors rounded out the selec-

tions, Kevin Buchanan at center and Dan Hoffman at safety. Hoffman was also named as a NAIA 3rd team All-American, first team NAIA District 21, and led the NAIA nationally in interceptions. Joining Hoffman on the All District 21 team were seniors Mike DeBord and George Gilbert.

It was also a year for records to be broken. Tim Johnson now holds the single game passing yardage record and junior Mike DeGeeter moved into second place in the standings for the all time leading pass receiver. Mike needs just 4 more catches to break the old record and move into the number one spot.

Above: Excitement causes Coach Jarrett to swallow his teeth. Right: Ed Debroka pulls down another victim.

Energy Crisis!!

"Persons will be written up for using these doors. Desk workers have been encouraged to write down names. P.S.I. has asked MC to enforce the one door policy."

This profound message was posted on a door at Garver Hall for all to read and adhere to. Other rather drastic measures taken by the college administration were re-scheduling of night and some afternoon classes, light usage in dorms and around campus was cut, and the administration also turned out numerous "energy memos."

The energy crisis struck MC and surrounding areas after students returned from an extended January interm break. Among the many changes we students encountered were cuts in the heating and lighting; leaving sections of campus in total darkness and very cold classrooms where many students decided to try taking notes with their mittens on. But things must always come to an end and the energy crisis was no exception and eventually campus life returned to a more normal routine.

TO: Manchester College Community

FROM: *Stan Escott*
Dean of Students

Electrical energy usage over the last week has reached an unacceptable conservation level. Within the next horizon we cannot afford to continue to monitor our daily energy usage. Our cut-back use figure of

How much longer will PSI maintain our estimate. If the United States on Friday, and they have unilaterally could anticipate the mandate. The 30-day coal supply level will end of March. It will be cut.

Keep up the good work. It is hanging in there until Spring.

OUR

COMMUNITY

North Manchester—The City

All of us, at one time or another, has driven or walked uptown to shop for food or gone for enjoyment or just to look around and see what's there.

North Manchester offers many things to it's college residents; more than just places to eat at or to go to for enjoyment. The town does have many old, and beautiful houses.

These pages are a pictorial of the town of North Manchester, Indiana.

College Life is . . .
away from your mother and father,
sometimes no hot water,
visitation,
hesitation,
and finally relaxation.

Sharing,
caring,
confusion,
delusion.

an easy day, a hectic day.
Shave cream fights,
pizza at nights,
looking for love,
or a stairway shove.

Missing,
kissing,
laughing,
crying.

Washing clothes,
Late night window shows.
Learning to live, learning to give.
Study late hours, and beautiful spring flowers.

Books,
papers,
midnight capers.

Forgetting or losing your key,
a \$5.00 fee,
lots of debts
and few regrets.

WHO DUN IT?

Pictured here are just a few of those campus workers who provide an innumerable amount of services vital to the functioning of M.C.

So next time you're tempted to toss that paper scrap or the ground or cram that memo into the nearest waste-basket, remember those hard working people who work for you.

Top: Aletha Cooper, Barbara Kelly, Doris Spann, Jerri Gidley, Lorraine Slifer, Marie Wade. Row 2: Jan Mock, Doris Huston, Velma Frey, Betty Roser, Ruth Hauser, Susan Walters, Jill Biehl, Mary Elizabeth Ayres. Row 3: Kay Batdorf, Dorothy Goodlander, Roberta Leuck, Grace Zunkel, Vickie Hapner, Rita Scholl, Patrice Nightengale, Geri Howard.

Above: First row; Lamoin Montel, Elmer Aschliman. Second row: Roger Shively, Toni Morrissey, Anna Mae Kinsey, Harold Miller, Wayne Ross, Rollin Wintrobe, Vernon Midmone, Lewis Deardoff. Third row: Noah Shively, Jackie Kaiser, Pete Kaiser, Gerald Metzger, Robert Metzger, Doug Campbell, Paul Shrider, Jeff Trachsel. Back row: Kieth Immel, Gene Rhoades, Royal Spangle.
